LETTER OF INVITATION/WELCOME MESSAGE

On behalf of the World Association of Radiopharmaceutical and Molecular Therapy, WARMTH, it is my pleasure to invite you to the 10th International Conference on Radiopharmaceutical Therapy, ICRT, in Innsbruck, Austria in May 2-8, 2015.

The ICRT meeting at Innsbruck promises to be a highlight for the theranostic soul of nuclear medicine. There will be plenary lectures devoted to nuclear medicine therapy as well as therapy-related diagnosis and follow-up. The distinguished speakers will address the state of the art and new developments. The symposia organized throughout the meeting will truly reflect WARMTH's mission with the goal of providing the best care for our patients. The keynote lectures presented by Manjit Dosanjh (Cern) on the Atlas Experiment, by Ignasio Carrio (Barcelona) on Personalized Nuclear Medicine and by Stanley Goldsmith (New York) on Radioiodine will highlight the conference.

The meetings organized by WARMTH are conceptually different from all other congresses. There is no registration fee for members of WARMTH, and everyone covers all other costs connected with the participation by lump-sum payment. We try to keep the expenses as low as reasonably possible so that professionals from all parts of the world and from all levels of nuclear medicine practice can attend. There are no parallel sessions. All participants take part in all scientific activities of the conference as well as in all social activities. According to Ajit Padhy WARMTH conferences are the "Meetings of Friends", belonging to the global nuclear medicine family.

In addition to the scientific and educational activities that you will enjoy during your attendance, the local organizing committee will do its best to make you feel welcome at Innsbruck in May 2015.

Please note the deadlines:

Deadline for submission of abstracts: 31 December, 2014

Deadline for early registration: 31 January, 2015

Deadline for lump-sum payment: 31 January, 2015

Registration and abstract submission can be completed on our website at warmth.org/icrt

I am looking forward to your active participation in the ICRT 2015 and contributions to all other activities of WARMTH, and to meet and interact with friends and colleagues from all over the world.

Irene Virgolini

ICRT 2015 Congress President
ICRT2015-Innsbruck@i-med.ac.at
