

SEPTEMBER 11 - 13, 2015

KOVAI MEDICAL CENTER & HOSPITAL, INDIA

**'Re'-inventing Rhenium 188  
"TARE"- ing down the barriers for liver cancer therapy**

Dear colleagues,

We welcome you to the 1st ever dedicated Congress and workshop on Re 188 and its broad therapeutic applications .

**The 3 day congress would feature world leaders with vast experience in Re production, chemistry, radio-labelling ,clinical and experimental use with this very versatile radio-nuclide.**

Niche scientific sessions for interventional radiologists, cardiologists, rheumatologists, oncologists and hepatologists/gastro enterologists gives a good platform to interact across clinical specialities and get a better understanding on the advantages of using Rhenium for your day to day practice.

**Dr. Ajit Shinto**  
Congress Chair

**CALL FOR  
ABSTRACTS**  
open from  
**Feb 15<sup>th</sup> 2015**

**KOVAI MEDICAL CENTER AND HOSPITAL**

**Dept of Nuclear Medicine, PET CT and therapy**  
Avanashi Road, Coimbatore-641014, India.  
0422 4323800-802, 3083800

## SCIENTIFIC PROGRAMME & TARGETED THEMES

- Trans Arterial Radio Embolisation with Re-188 agents(TARE)
- Radiation Synovectomy
- Peptide Receptor Radionuclide Therapy(PRRT)
- Bone Pain Palliation Therapy
- Radio-immunotherapy
- Skin Tumour Therapy
- Theranostics
- Generator Technology and Production
- Re chemistry and Labeling to produce new compounds

## SOCIAL EVENTS

- Congress Opening
- Formal "Re -juvinate" banquet with Prof. Ajith Padhy memorial and WARMTH Orations
- Themed Informal Banquet ("**Re**"-lax)
- Meet the experts and dedicated student lounge
